

2 November, 2025

Dear

Thank you so much for your lovely letter. I was very happy to read all your updates and to know that you are all doing well.

I'm fine here by the grace of God and hope you all are also fine there. Please take care of yourselves.

Congratulations! Anna, on completing your bachelor's degree in biology! Studying neuroscience in Germany sounds very interesting. Hope your hard work pays off and you achieve great results. It was also nice to read about your parents' wonderful work your mom helping children and your dad guiding business managers sounds truly inspiring.

I'm really enjoying my Hotel Management studies in +2. I have met friendly classmates and teachers, and I'm learning many new things. Recently, I had a wonderful experience visiting Gorkha Darbar, Bhimsen Park, & the Children's Park with Ursula ma'am. I enjoyed a lot. It was full of fun, laughter, and beautiful views. I also had an unforgettable moment with ma'am that made the day even more special and memorable!

After completing my +2, I plan to go abroad to continue my studies in hotel management. It is my dream to build a successful career in the hospitality industry and explore new cultures.

Thank you once again for your kind words and warm wishes. Please give my best regards and lots of love to your family.

With love and best wishes,

Diya
